

### **Listing of Claims**

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Cancelled)
2. (Previously Amended) A paper product as defined in claim 45, wherein said water comprises between about 40% to about 70% by weight of said lotion.
3. (Previously Amended) A paper product as defined in claim 45, wherein said emollient component comprises between about 1% to about 10% by weight of said lotion.
4. (Previously Amended) A paper product as defined in claim 45, wherein said emollient component includes a linear primary alkyl ester of benzoic acid.

---

5. (Currently Amended) A paper product as defined in claim 4 45, wherein said linear primary alkyl ester of benzoic acid is C<sub>12</sub>-C<sub>15</sub> alkyl benzoate.

---

6. (Previously Amended) A paper product as defined in claim 45, wherein said fatty alcohol component comprises between about 10% to about 30% by weight of said lotion.
7. (Previously Amended) A paper product as defined in claim 45, wherein said fatty alcohol component includes a fatty alcohol selected from the group consisting of cetyl alcohol, stearyl alcohol, cetearyl alcohol, arachidyl alcohol, behenyl alcohol, and combinations thereof.

8. (Previously Amended) A paper product as defined in claim 45, wherein said emulsifier component comprises between about 5% to about 20% by weight of said lotion.

9. (Previously Amended) A paper product as defined in claim 45, wherein said emulsifier component includes a polyoxyethylene stearyl ether.

10. (Previously Amended) A paper product as defined in claim 45, wherein said skin conditioning component comprises between about 10% to about 40% by weight of said lotion.

11. (Cancelled)

12. (Previously Amended) A paper product as defined in claim 45, wherein said humectant includes glycerin.

13. (Previously Amended) A paper product as defined in claim 45, wherein said skin conditioning component includes a skin conditioning agent selected from the group consisting of dimethicone, glyceryl stearate, caprylic/capric stearate triglyceride, stearamidopropyl PG-dimonium chloride phosphate and cetyl alcohol, and combinations thereof.

14. (Previously Amended) A paper product as defined in claim 45, wherein said add-on level of said lotion is between about 1% to about 10% by weight of said paper product.

15. (Previously Amended) A paper product as defined in claim 45, wherein said lotion further comprises an antimicrobial agent, a preservative, or combinations thereof.

16. (Previously Amended) A paper product as defined in claim 45, wherein said paper product is a towel having a basis weight between about 1 to about 50 pounds per ream.

17. (Previously Amended) A paper product as defined in claim 45, wherein said paper product is a towel having a basis weight between about 15 to about 45 pounds per ream.

C 2 18. (Currently Amended) An absorbent paper towel for drying and conditioning the skin of a user, said towel having a basis weight from about 15 to about 45 pounds per ream, said towel comprising:

a paper web;

a an oil-in-water emulsified lotion applied to said paper web such that the add-on level of said lotion is between about 1% to about 10% by weight of said paper towel, said lotion comprising ~~the following components~~:

- i) water in an amount between about 10% to about 75% by weight of said lotion;
- ii) an emollient component in an amount between about 1% to about 15% by weight of said lotion, said emollient component including C<sub>12</sub>-C<sub>15</sub> alkyl benzoate;
- iii) a fatty alcohol component in an amount between about 5% to about 40% by weight of said lotion, wherein said fatty alcohol component includes a fatty alcohol selected from the group consisting of cetyl alcohol, stearyl alcohol, cetearyl alcohol, arachidyl alcohol, behenyl alcohol, and combinations thereof;
- iv) an emulsifier component in an amount between about 1% to about 30% by weight of said lotion, said emulsifier component including at least one emulsifier; and

12  
v) a skin conditioning component in an amount between about 5% to about 50%  
by weight of said lotion, said skin conditioning component including glycerin in an  
amount of between about 1% to about 10% by weight of said lotion.

---

19. (Original) A paper towel as defined in claim 18, wherein said water  
comprises between about 40% to about 70% by weight of said lotion.

20. (Original) A paper towel as defined in claim 17, wherein said emollient  
component comprises between about 1% to about 10% by weight of said lotion.

21. (Original) A paper towel as defined in claim 18, wherein said fatty alcohol  
component comprises between about 10% to about 30% by weight of said lotion.

22. (Original) A paper towel as defined in claim 18, wherein said emulsifier  
component comprises between about 5% to about 20% by weight of said lotion.

23. (Original) A paper towel as defined in claim 18, wherein said emulsifier  
includes a polyoxyethylene stearyl ether.

24. (Original) A paper towel as defined in claim 18, wherein said skin  
conditioning component comprises between about 10% to about 40% by weight of said  
lotion.

25. (Original) A paper towel as defined in claim 18, wherein said skin  
conditioning component includes a skin conditioning agent selected from the group  
consisting of dimethicone, glyceryl stearate, caprylic/capric stearate triglyceride,  
stearamidopropyl PG-dimonium chloride phosphate and cetyl alcohol, and combinations  
thereof.

26. (Original) A paper towel as defined in claim 18, wherein said lotion further comprises an antimicrobial agent, a preservative, or combinations thereof.

27. (Cancelled)

28. (Previously Amended) A method as defined in claim 46, wherein said lotion is printed onto said paper web.

29. (Previously Amended) A method as defined in claim 46, wherein said lotion is sprayed onto said paper web.

30. (Previously Amended) A method as defined in claim 46, wherein said water comprises between about 40% to about 70% by weight of said lotion.

31. (Previously Amended) A method as defined in claim 46, wherein said emollient component comprises between about 1% to about 10% by weight of said lotion.

32. (Previously Amended) A method as defined in claim 46, wherein said emollient component includes a linear primary alkyl ester of benzoic acid.

---

C<sup>3</sup> 33. (Currently Amended) A method as defined in claim 32 46, wherein said linear primary alkyl ester of benzoic acid is C<sub>12</sub>-C<sub>15</sub> alkyl benzoate.

---

34. (Previously Amended) A method as defined in claim 46, wherein said fatty alcohol component comprises between about 10% to about 30% by weight of said lotion.

35. (Previously Amended) A method as defined in claim 46, wherein said fatty alcohol component includes a fatty alcohol selected from the group consisting of cetyl

alcohol, stearyl alcohol, cetearyl alcohol, arachidyl alcohol, behenyl alcohol, and combinations thereof.

36. (Previously Amended) A method as defined in claim 46, wherein said emulsifier component comprises between about 5% to about 20% by weight of said lotion.

37. (Previously Amended) A method as defined in claim 46, wherein said emulsifier component includes a polyoxyethylene stearyl ether.

38. (Previously Amended) A method as defined in claim 46, wherein said skin conditioning component comprises between about 10% to about 40% by weight of said lotion.

39. (Cancelled)

40. (Previously Amended) A method as defined in claim 46, wherein said humectant includes glycerin.

41. (Previously Amended) A method as defined in claim 46, wherein said skin conditioning component includes a skin conditioning agent selected from the group consisting of dimethicone, glyceryl stearate, caprylic/capric stearate triglyceride, stearamidopropyl PG-dimonium chloride phosphate and cetyl alcohol, and combinations thereof.

42. (Previously Amended) A method as defined in claim 46, wherein said add-on level of said lotion is between about 1% to about 10% by weight of said paper product.

43. (Previously Amended) A method as defined in claim 46, wherein said lotion further comprises an antimicrobial agent, a preservative, or combinations thereof.

44. (Previously Amended) A method as defined in claim 46, wherein said paper product is a towel having a basis weight between about 15 to about 45 pounds per ream.

45. (Currently Amended) An absorbent paper product for drying and conditioning the skin of a user, said paper product comprising:

a paper web; and

3  
a <sup>59</sup>~~an~~ <sup>51</sup>oil-in-water emulsified lotion applied to said paper web such that the add-on level of said lotion is between about 1% to about 15% by weight of said paper product, said lotion comprising:

i) water in an amount between about 10% to about 75% by weight of said lotion;  
ii) an emollient component in an amount between about 1% to about 15% by weight of said lotion;

iii) a fatty alcohol component in an amount between about 5% to about 40% by weight of said lotion;

iv) an emulsifier component in an amount between about 1% to about 30% by weight of said lotion; and

v) a skin conditioning component comprising between about 5% to about 50% by weight of said lotion, said skin conditioning component including glycerin in an amount between about 1% to about 10% by weight of said lotion. \*

46. (Currently Amended) A method for forming a paper product for drying and conditioning the skin of a user, said method comprising:

forming a web from at least one furnish containing fibers and water;

through-drying said web to remove water therefrom; and

thereafter, treating said dried web with a an oil-in-water emulsified lotion such that said lotion has an add-on level of between about 1% to about 15% by weight of said paper product, said lotion comprising:

i) water in an amount between about 10% to about 75% by weight of said lotion;

ii) an emollient component in an amount between about 1% to about 15% by weight of said lotion;

iii) a fatty alcohol component in an amount between about 5% to about 40% by weight of said lotion;

iv) an emulsifier component in an amount between about 1% to about 30% by weight of said lotion; and

v) a skin conditioning component comprising between about 5% to about 50% by weight of said lotion, said skin conditioning component including glycerin in an amount between about 1% to about 10% by weight of said lotion.

47. (Previously Added) An absorbent paper towel as defined in claim 18, wherein said paper web is formed by uncreped, through-drying.

48. (Previously Added) An absorbent paper product as defined in claim 45, wherein said paper web is formed by uncreped, through-drying.

49. (Previously Added) A method as defined in claim 46, wherein said paper web is formed without being creped.

50. (Previously Added) A method as defined in claim 46, wherein the fibers contain secondary fibers.

51. (Previously Added) A paper towel as defined in claim 18, wherein the paper web contains secondary fibers.

52. (Previously Added) A paper product as defined in claim 45, wherein the paper web contains secondary fibers.
